(54) METHOD FOR REMOVING FERMENTATION SMELL

(57)Abstract:

PURPOSE: To remove a precursor component in fermentation smell contained in an alcoholic fermentation product, suppress the fermentation smell emitted with time and enable the sufficient utilization of active ingredients in the alcoholic fermentation product.

CONSTITUTION: The method for removing fermentation smell is to pass an alcoholic fermentation product through a cation exchange resin, an anion exchange resin, a synthetic adsorbent or a combination thereof.

LEGAL STATUS

[Date of request for examination] 26.05.1999

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
